THE LIFESTYLE OF LUXURY

EXTENDED STAY LUXURY FIFTH WHEELS

MAY YOUR ADVENTURES BRING YOU CLOSER TOGETHER,
EVEN AS THEY TAKE YOU FARTHER FROM HOME.

The 39FK is designed with your dream kitchen in mind, with a cupboard for every pan, a shelf for every dish, and enough counter space to prepare meals with the whole campground in mind. Pictured here is the residential stainless steel dual bowl sink with a dishwasher underneath, 20 cu. ft. refrigerator, 30" stainless steel convection microwave, and the optional LP gas oven.

39FK FLOORPLAN

Finally there is an answer for all those with a toy that do not want to sleep in the garage. The 39FKTH brings the brilliant interior appointments of the Riverstone brand into a "Toy Hauler" fit for motorcycle and golf cart enthusiasts alike. With a garage that is 66" wide, 110" deep and up to 84" tall there is finally a fifth where you do not have to sacrifice your luxury for your toys.

39FKTH FLOORPLAN

In the 39RKFB not only is there a bath and half with a walk-in closet, but with the standard desk in the living room it has the benefits of an office without taking up all the space. (Optional second tri-fold sofa IPO desk available.) The washer and dryer are standard in the half bath, along with a spacious living room all without sacrificing that much needed counter space in the kitchen.

CUSTOMER SATISFACTION

www.ForestRiverBuyLocal.com

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.
