Cargo Carrying Capacity	1101	1166
Hitch Weight	300	360
Overall Length	23' 4"	23' 4"
Exterior Width	88"	88"
Exterior Height (with A/C)	10' 1"	10' 1"
Fresh Water (gal.)	36	36
Grey Water (gal.)	30	30
Black Water (gal.)	30	30
Awning Size	12'	14'

** We know weights and dimensions are an important part of your buying decision. Please refer to the back page for specification definitions.

BUILT TO A HIGHER STANDARD

- ALUMINUM CAGE CONSTRUCTION.** Aluminum framing around all openings resulting in the best structural integrity in its class.
- WALL CONSTRUCTION.**
 - Pinch roll laminated with 100% glue coverage.
 - Azdel exterior.
 - Block foam insulated.
- FULLY WALKABLE ROOF.** 16" on center aluminum trusses (N/A 19BHL and 19RBL) featuring 3/8" decking, residential insulation and PVC roof membrane for maximum durability and protection.
- ENCLOSED & HEATED UNDERBELLY.** Fully enclosed underbelly with radiant heat (model specific). Our 2 inch aluminum floor features block foam insulation and double layer plywood on the interior, offset for higher integrity.

- DUCTED A/C** Unlike other manufacturers, every model we build comes standard with ducted A/C featuring adjustable vents throughout (N/A 19BHL and 19RBL).

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

CUSTOMER SATISFACTION

www.ForestRiverBuyLocal.com

GVWR (Gross Vehicle Weight Rating) - is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GAWR (Gross Axle Weight Rating) - is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

UVW (Unloaded Vehicle Weight)* - is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** - is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated Average based on standard build optional equipment.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
