CoPilot Map Screen / Tips:

Your new Magnadyne RV radio is equipped with GPS Turn-By-Turn navigation system by CoPilot. All software and mapping is stored on a Micro-SD card located in the bottom slot behind the door on the upper right corner of your radio face.

Enclosed is a basic quick reference guide to get you setup and started with navigation. For more detailed information regarding this navigation software and mapping system, visit CoPilot online at support.copilotpro.com/en/support/solutions/19000098128.

Start the Navigation System:

Information

Display

- 1. Press the **Home** button on the radio face to bring up the home page.
- 2. Touch the offramp icon 🔽 at the lower right side of the screen. This will launch the CoPilot navigation software.

Accept the Licensing agreement:

Enter the vehicle information:

If you do not know these details, you can enter them at a later date. Touch the right side arrows to bypass or save the information you have selected.

<	RV Routing Profile	2
