

ROCKWOOD

SIGNATURE FIFTH WHEELS
PROVIDING OUTDOOR FUN SINCE 1974

OVER 45 YEARS OF EXCELLENCE

Founded in 1974 on the principle of providing superior value and service while remaining in tune with customer preferences, Rockwood has become the ultimate luxury product in the light weight fifth wheel market, proudly showcasing more innovative floor plans, appealing features and refined interior appointments than any others in its class.

**ROCKWOOD REMAINS COMMITTED
TO ENSURING CUSTOMERS ENJOY
THEIR CAMPING EXPERIENCES**

Rockwood aims to provide customers with the best built product possible at an unmatched value through the utilization of an experienced work force, state-of-the-art lamination facility, modern production plants, and detailed assembly processes.

Since 1974, Rockwood has emerged as an industry leader in the manufacturing of light weight travel trailers, fifth wheels, and tent campers by focusing on superior build quality and developing a tight-knit workforce.

Specification Definitions

GVWR (Gross Vehicle Weight Rating): is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR. **GAWR (Gross Axle Weight Rating):** is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles. **UVW (Unloaded Vehicle Weight):**¹ is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. **CCC (Cargo Carrying Capacity):**¹ is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 IWW per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision.

¹ Estimated Average based on standard build optional equipment
