Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)This device must accept any interference received, including interference that may cause undesired operation.</div><div>FCC NOTICE:</div><div>This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: ●Reorient or relocate the receiving antenna. ●Increase the separation between the equipment and receiver. ●Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. ●Consult the dealer or an experienced radio/TV technician for help.</div><div>FCC WARNING:</div><div>To assure continued operation, follow the attached installation instructions and use only shield cables when connecting to other devices. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</div></div>	<div><div>FEATURES</div><div><ul style="list-style-type: none">● Easy built-in wireless charging.● Quick and easy DIY installation.● Stylish and distinctive quality design.● Multi-brand compatible, works with any Qi enabled smart phone and supports fast charging.● Seamless, fast, and effective smart phone charging.● Over voltage protection and over current protection function.● Temperature control function.● Charging Distance 5mm.● Input voltage 12V 2A.</div></div>	<div><div>PARTS LIST</div><div><div><div>Main Unit</div></div><div><div>Mounting Plate</div></div><div><div>Screw Bolt</div></div><div><div>Gasket</div></div><div><div>Butterfly Nut</div></div><div><div>Instruction Manual</div></div><div><div>DC Power Extension (Red and Black) Cable</div></div></div></div>
<div><div>INSTALLATION</div><div>Installation Procedures:</div><div><div><div><div>① Drill a round hole, 80-82mm(3") diameter and depth between 15.5-56mm(5/8"-2") throughout the mounting position.</div><div>② Put the Main Unit into the hole.</div><div>③ Put the extending DC cable into the gap of the Fixing Plate.</div><div>④ Screw the Butterfly Nut into Screw Bolt, then put the Gasket and Fixing Plate into the Screw Bolt.</div><div>⑤ Screwing the Screw Bolt into the screw hole at the bottom of the Main Unit.</div><div>⑥ Turn the Butterfly Nut until the Fixing Plate fixed firmly to the bottom of the mounting position.</div></div><div></div></div></div></div>	<div><div>OPERATION</div><div>To charge the external device, follow this procedure:</div><div><div><div>① Insert the DC Extending Cable to the DC Cable Connector.</div><div>② Connect the DC Extending Cable to the DC Power Supply(DC12V).</div></div><div>NOTE:</div><div><ul style="list-style-type: none">● Make sure the power supply is DC12V.● DO NOT connect to the 24V car power supply.● Make sure the color of connecting cable matched.● Keep the charging surface clear.</div><div><div>③ Put the device with wireless charging function onto the surface of the Main Unit for recharging.</div><div>Make sure to center charging area on device with the center of the charging surface.</div></div><div></div></div></div>	<div><div>CLEANING</div><div><div><div>1. To prevent fire or shock hazard, disconnect your unit from the DC power source when cleaning.</div><div>2. The finish on your unit may be cleaned with a dust cloth and cared for as other furniture. Use caution when cleaning and wiping the plastic parts.</div><div>3. Mild soap and a damp cloth may be used.</div></div></div></div>	<div><div>SPECIFICATIONS</div><div><div>Power Input.....DC 10-14V</div><div>Working Distance.....5 mm</div><div>Working Temperature.....32-95°F</div><div>Standard.....Qi-BPP</div><div>Rechargeable Device Quantity.....1 Piece/Time</div></div><div>SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE.</div></div>
