

## Hot water from the first second!

With the Sinkmi\$er/Showermi\$er

## Stop wasting fresh water With the Aqua View Sinkmi\$er & Showermi\$er

From the time you turn on the water, to the moment it reaches a pleasant warm temperature, cold fresh water unnecessarily runs down the drain, filling up your gray water tank.

With the color changing and environment-friendly technology of Aqua View Sinkmi\$er/Showermi\$er installed on your sink or shower, you can simply redirect the cold water back into the fresh water tank until it's hot enough. This way you waste less fresh water and your gray water tank doesn't fill up as fast.

- 1. Open the shower tap with the lever at pos. 1:**  
Cold water runs through the Sinkmi\$er/Showermi\$er.
- 2. When hot water arrives:**  
Sinkmi\$er/Showermi\$er changes its color from blue to grey.
- 3. Turn the lever to the showerhead or tap outlet at pos. 2:**  
Your hot water is now ready to go!

## Advantages and product highlights

- Easy color-changing indication for the arrival of hot water
- Never step into a cold shower again
- Save fresh clean water with every use
- Save gray water tank capacity
- Increase your water capacity by up to 40% – without changing the tanks or adding weight to the vehicle
- Save time, money and environmental resources
- Easy to install

### Installation example for Sinkmi\$er in a shower

Connection of color changing part between shower outlet and the fresh water tank.

With the lever at position 1, cold water is redirected back to fresh water tank. Once the water is hot, turn the lever to position 2, so hot water is directed to the shower head.
